HM381 Overview

HM381 with 5-Bladed Cylinder Cutting System

The traditional lawns are on the whole cut with cylinder lawnmowers as they can give an excellent even cut and striped finish. The Cobra HM381 hand push mower has 5 precision ground blades at the front of the lawnmower that rotate, trapping and slicing the grass blades against a fixed bottom plate.

This gives a 'scissor like' cutting action that will help you to produce a beautiful sharp cut and a low finish to your lawn.

Cylinder Blade System

The 5 bladed cylinder system has a 'scissor cut' action for a fine finish.

Environmentally Friendly

No petrol or cables make the HM381 the perfect 'Environmental' choice.

Tool-less Height Adjustment

Easily adjust the height of cut from 13-38mm with tool-less adjusters.

Operator Comfort Handle

The comfort 'soft touch' handle makes pushing the HM381 a pleasure.

A Traditional Striped Finish

The split rear roller helps the HM381 produce a beautiful striped finish.

'Easy Empty' Grass Bag

A simple 'click' and the 25ltr material grass bag is removed for emptying.

HM381 Cylinder Mower

Cobra cylinder mowers come equipped with a rear roller to help create a traditional striped finish on your lawn. The Cobra HM381 also gives you the ability to mow right up to the edge of your flowerbeds and borders.

The Cobra HM381 hand mower has a 5-bladed hardened steel cylinder cutting system that cuts the grass cleaner and sharper, helping the grass to keep greener for longer. Features also include tool free setting and easily adjustable height of cut from 13mm to 38mm.

MX51S80V Overview

3-in-1 Cutting System - Cut your lawn, your way

The MX51S80V not only gives you the traditional cut and collect method, but it has the benefit of two additional options. With the supplied mulch plug fitted you can mulch your grass clippings back into the lawn providing nutrients for a fuller, lusher lawn.

If you don't want to mulch your grass or your lawn has become overgrown, simply lift the blanking plate and insert the side discharge chute. The grass will now be discharged in neat lines to the side of where you are mowing. The choice is yours.

*Battery run times based on ideal mowing conditions. Requires both batteries to operate.

M41C Overview

COBRA

The M41C is Expertly Powered by Cobra Engines

The Cobra M41C is powered by a Cobra easy starting DG350 OHV engine. The Cobra DG350 engine offers a quiet, lightweight, yet powerful combination for a variety of demanding applications.

Incorporating the latest engine design technologies ensuring optimal torque and efficiency, the DG350 powers Cobra lawnmowers for gardens up to 600 square meters.

'Easy Start' Cobra Engine

The M41C is powered by an 'easy start' Cobra DG350 OHV engine.

Lightweight Polymer Deck

With a lightweight polymer deck, the M41C is easily manoeuvrable.

Operator Comfort Controls

The M41C has comfortable control handles making it a pleasure to use.

Beautiful Finish Every Time

The 16" blade can easily maintain long or shorter grass leaving a superb finish.

Single Height Adjustment

Easily adjust your cutting height from 25 - 75mm using one simple lever.

'Easy Empty' Grass Bag

Easily removable grass bag for hassle free emptying of grass clippings.

M40C

MX460SPH Overview

3-in-1 Cutting System - Cut your Lawn, your Way

The MX460SPH not only gives you the traditional cut and collect collection method, but it has the luxury of two additional options. With the supplied mulch plug fitted you can mulch your grass clippings back into the lawn providing nutrients for a fuller, lusher lawn.

If you don't want to mulch your grass or your lawn has become overgrown, simply lift the side blanking plate and insert the side discharge chute. The grass will now be discharged in neat lines to the side of where you are mowing. The choice is yours.

'Easy Start' Honda Engine

The Cobra MX460SPH is powered by a GCVX145 'Easy Start' Engine.

Mulch Your Grass Clippings

Recycle your grass clippings back into your lawn for a lusher, greener finish.

Side Discharge Facility

Simply insert the side discharge chute to discharge grass neatly to the side.

Operator Comfort Controls

The 'Soft Touch' handles make the MX460SPH a pleasure to operate.

Single Height of Cut Adjuster

Cut from as low as 25mm up to 75mm using the central single lever.

Large Capacity Grass Bag

Minimise the amount of trips to the recycling bin with the large 65ltr bag.

MX484SPCE

19” Lawnmower with Electric Start Cobra Engine

The Cobra MX484SPCE push button start lawnmower has a cutting width of 48cm and is ideal for medium to large lawns. Powered by a Cobra Y173V 173cc 4-stroke engine, this 4-speed lawnmower is designed to perform the most demanding tasks with ease.

MX484SPCE Overview

MX484SPCE with Easy Starting at the Push of a Button

As well as the standard recoil pull-start, the feature packed Cobra MX484SPCE is equipped with a push button electric starting system to make starting your Cobra lawnmower even easier.

Electric Starting eliminates the necessity of pulling the recoil rope, replacing it with a push button starter. Using this method will help reduce wear and tear on the engine and minimise strain on the operators. A charger is supplied to keep the battery always ready to cut your lawn..

Expertly Powered By Cobra

The Y173V 'Easy Starting' engine produces 173cc of pure power.

Side Discharge Facility

Simply insert the side discharge chute to discharge grass neatly to the side.

4-Speed Gearbox

Cobra 4-speed drive system gives you total control of your mowing speed.

Mulch Your Grass Clippings

For a 'Greener' way to cut your lawn use the supplied mulching plug.

Single Height of Cut Adjuster

Cut from as low as 25mm up to 75mm using the central single lever.

Push Button Starting System

Mow your lawn simply at the push of a button with the electric start system.

MX514SPB

Cut from as low as 25mm up to 75mm using the central single lever.

Expertly Powered By Cobra

The Y196V 'Easy Starting' engine produces 196cc of pure power.

Push Button Starting System

Mow your lawn simply at the push of a button with the electric start system.

Simple to Clean Deck

Attach a hose pipe to the deck wash port to clean underneath your mower.

Side Discharge Facility

Simply insert the side discharge chute to discharge grass neatly to the side.

Mulch Your Grass Clippings

For a 'Greener' way to cut your lawn use the supplied mulching plug.

'Easy Empty' Grass Bag

The easy to remove and empty bag holds 65ltr's of grass clippings.

Side Discharge Facility

Side discharge longer areas of lawn by inserting the discharge chute.

Mulch Your Grass Clippings

Reintroduce nutrients back into your lawn using the supplied mulch plug.

4-Speed Gearbox

Ultimate operator control is achieved using the 4-speed self drive system.

The AirMow Range

The Cobra AirMow series of hover mowers float on a cushion of air and have all the user freedom that petrol and cordless powered machines can offer. All models come equipped with a 3-in-1 wheel kit as standard for even easier mowing or transporting your mower to a new area.

The three models in the range are both lightweight and manoeuvrable, enabling you to cut the grass easily in awkward to reach areas of the lawn and on slopes of up to 45°. Powered by Honda, Briggs & Stratton and 80v cordless power for ultimate power and reliability.

AIRMOW 5180V

20" Twin 40v Li-ion Powered Hover Mower

The Cobra AirMow 5180V hover mower floats on a cushion of air and is powered by twin 40V batteries giving an impressive 80V of cutting power. Capable of cutting on 45° slopes and with its included wheel kit, this cordless AirMow is truly an impressive machine.

AIRMOW 5180V Overview

3-in-1 Wheel Kit as Standard with the AirMow Range

All models in the Cobra AirMow range come as standard with an included 3-in-1 wheel kit. This easy to use and convenient kit not only helps when transporting your Cobra AirMow to and from cutting locations, it can also be engaged when mowing areas where support balancing your mower is more challenging.

Its so easy to do. No tools are required. If the transport wheels are not required, simply lift the wheels and they click into there new position ready for you to begin mowing.

Twin 40v Li-ion Battery Power

The Twin 5Ah 40v Li-ion batteries power the Cobra 80v brushless motor.

Cobra 3-in-1 Wheel Kit

Helps to easily transport your AirMow and offers support when mowing.

Easy Tool-less Adjustment

If your wheel kit is not required, a simple click and its fixed into its new position.

Battery Level Indicator

Built in Battery power indicator allows easy monitoring of both batteries.

Easy Height of Cut Adjuster

Cut from as low as 17mm up to 25mm using the included spacers.

Cuts on up to 45° slopes

Cut your grass in awkward to reach areas and on slopes of up to 45°.

AIRMOW 51B

20” Petrol Hover Mower Powered by a B&S Engine

The Cobra AirMow 51B petrol hover mower is powered by Briggs & Stratton 575EX 'Ready Start' engine and is equipped with a wheel kit as standard. The Cobra hover mowers are ideal for cutting on 45° slopes.

M53HST-PRO Overview

POWERED by HONDA

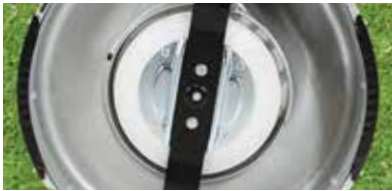

The M53HST-PRO Powered by Honda Engines

The Cobra M53HST-PRO is fitted with a Honda GXV160 engine for superior power and unrivalled performance. As the world's largest engine manufacturer, Honda offers years and years of experience.

Better fuel efficiency, higher power output, quieter performance, easy to start. No matter how you define superior engine performance, Honda engines set the standard for petrol engines.

Shaft Driven Drive System
Cope easily with long periods of use in the most challenging conditions.

Reinforced Steel Deck Liner
The reinforced deck liner protects & increases the life of your deck.

Front Protection Bumper Bar
Equipped with a robust stainless steel front bar for increased protection.

Hydrostatic Drive Gearbox
The hydrostatic drive offers ultimate control over your drive speed.

Robust Aluminium Deck
The aluminium deck offers durability, robustness and a longer working life.

Blade Brake Clutch System
Safely disengage the mower blades without having to stop your engine.

RM48SPK

19” Lawnmower with Rear Roller & Kohler Engine

WT56B Overview

WT56B Tackles Rough Areas and Longer Grass

The Cobra WT56B wheeled grass trimmer is capable of taming areas of overgrown grass and thick weeds. The WT56B can cut all kinds of grass, undergrowth and brambles and can work on challenging surfaces thanks to the wide front opening and large, robust wheels.

Wheeled trimmers are suitable for cutting operations on overgrown areas in gardens, orchards, vineyards and areas that are inaccessible with a standard handheld grass trimmer.

B&S 'Ready Start' Engine

Powered by a Briggs & Stratton 750EX Series 'Ready Start' engine.

Easy Height Adjustment

Easily adjust your trimming height from 38 - 76mm with no tools required.

Equipped For Tough Areas

With 2 large rear wheels, the WT56B is easily manoeuvrable in rough areas.

Heavy Duty 4mm Line

The heavy duty 4mm nylon cord makes light work of tough jobs.

Tool-less Foldable Handles

Easily adjust the angle of your handles with comfortable tool-less adjusters.

Steel Protection Guard

The heavy duty steel cutting guard protects the operator from debris.

GT260 Overview

Expertly Powered by Cobra

The powerful 26cc Cobra engine has all the power your Cobra grass trimmer needs to tackle any job in the garden.

The 2-stroke engine produces strong power delivery together with state of the art engine technology, whilst achieving reduced fuel consumption and low emission levels. This lightweight engine really is a joy to use.

Complete with Bent Shaft

The Cobra GT260C petrol trimmer is complete with a bent shaft for total operator comfort and control.

The ergonomically designed bent shaft allows the two-string nylon cutting head to be guided over the working area to neatly trim grass and any weed growth precisely. The bent shaft also allows easy access to awkward areas.

Comfort D-Loop Handle

The D-Loop handle on the GT260C allows the operator complete control over the task in hand.

When combined with the included single shoulder harness, this trimmer is ideal for tackling large, demanding tasks. Also included is a protection bar on the shaft which helps shield your legs from the trimmer head.

HT550E Overview

The HT550E Tackles Hedges and Bushes with Ease

The HT550E electric hedgecutter from Cobra comes with a 55cm double sided reciprocating cutting blade and a large 20mm tooth spacing. Double sided blades are more suitable for shaping, as you can alter the direction of the cut without moving around as much. This truly is a versatile electric hedgetrimmer.

The ergonomically positioned controls not only make operator use more comfortable but combined with the 'twist grip' handle, easier to cut at variety of angles with comfort and control.

Powerful 600W Motor

Tame hedges and bushes with ease with the powerful 600w electric motor.

55cm Double Sided Blade

Equipped with a high quality 55cm double sided blade with tip protector.

10m Cable Included

Cut hedges around your garden with no need for extra extension leads.

'Twist Grip' Technology

Cut your hedges comfortably on any angle using the HT550E 'twist grip'.

Ergonomic Comfort Controls

The HT550E is comfortably operated using the well positioned controls.

Protective Safety Guard

The operator safety guard will protect from any flying debris and cuttings.

The Electric Handheld Range

The Cobra range of handheld electric products are powered by high performance electric motors giving even more power at your fingertips. The range includes four products that are specifically designed to tackle most jobs around the garden.

Products included in this comprehensive range include a hedgetrimmer with 'Twist Grip' handle, one garden shredder, a grass trimmer and a blower / vac. Whatever the task in your garden, there is sure to be a Cobra tool to get the job done.

BV3001E

PW18024V Overview

The Completely Portable Pressure Washing System

The Innovative PW18024V pressure washer is powered by Cobra's 24v Li-ion cordless system. Unlike traditional pressure washers powered by electricity or petrol, the PW18024V is completely portable! You don't even need a mains water supply. Simply drop the supplied hose and filter into a vessel containing water (a bucket, a water butt) and your ready to go.

The multitude of attachments will quickly and effectively clean cars, bikes, patios, garden furniture and much more. The battery is also compatible with the entire range of Cobra 24v garden tools.

10m Hose with Water Filter

Submerge the hose and filter in any water source, and your ready to go.

Variable Spray Long Lance

The extended variable spray lance will deliver either a strong jet or fine spray.

5-in-1 Variable Spray Head

The shorter 5-in-1 spray head has 5 spray settings for cleaning and rinsing.

Foam Jet Nozzle Head

Add detergent to the bottle to spray foam onto the item you are cleaning.

Soft Bristle Brush Head

The soft brush head will gently remove dust, dirt and debris from any surface.

Stiff Wheel Brush Head

The Wheel brush head is perfect for removing more stubborn dirt.

The 24v Cordless Handheld Range

The Cobra Li-ion 24v cordless range are not only powerful and efficient to help easily maintain your home & garden, but are even easier to operate without the need for any petrol or electric cables.

The 24v range includes one grass trimmer with 30cm cutting width, one hedgetrimmer with 19" blade, a blower, a pressure washer, a long reach hedgetrimmer and a chainsaw. Use your fully charged Cobra cordless machine wherever and whenever you like.

CS1024V

24v Li-ion Chainsaw with Oregon Bar & Chain

The Generator Range

The three Cobra generators provide a clean, quiet and reliable source of power and are convenient and cost-effective. These generators vary from 50cc - 208cc engines and 1.0kW - 3.2kW max outputs.

The IG10SI is ideal for operating sensitive electronics such as computers, TV's, DVD's, PA systems. The IG20SI can be used for a wide range of domestic and commercial uses and the IG32ESI is ideal for larger caravans and motor homes.

IG10SI

The Chipper Range

The Cobra wood chippers in the range are both powered by 6.5hp Loncin engines with the CHIP650LE model having the added benefit of an electric start system. These compact and highly manoeuvrable machines are powerful enough to easily chip branches up to 80mm (3 inches) diameter thanks to the 'gravity fed' chute and blade system.

The unique hinged design of the chute allows easy access to the blades. The slender design and large wheels allow the chippers to be manoeuvred with ease.

CHIP650L

Powerful 6.5hp 3" Wood Chipper

CHIP650LE - Electric Start Model

The Cobra CHIP650L is a 6.5hp wood chipper, is small and compact but powerful enough to easily shred branches up to 80mm (3 inches) diameter. The unique hinged design of the chute allows easy access to the blades. The slim design, large wheels and well balanced construction allows the chipper to be manoeuvred with ease.

The CHIP650LE model has all the above features but with the added benefit of an electric start Loncin engine.

CHIP650L/LE Overview

Unique Hinged Chute

The Cobra CHIP650L and CHIP60LE petrol chippers both come equipped with a unique hinged chute design.

The design of the chute allows access to the blades for easy maintenance.

Large 80mm / 3" Diameter

Cobra chippers are equipped with large diameter 80mm / 3" chutes to accommodate larger branches.

Waste is drawn in thanks to the gravity fed chute design and blade system.

Powered By Loncin Engine

Both chippers are powered by 6.5hp Loncin engines with the CHIP650LE having an electric key start feature.

Loncin's powerful engines are ideal for tackling large, demanding tasks.

S40C Overview

No More Moss & Thatch with the Cobra S40C

Lawn scarification and aeration play an important role in any lawn care program. Over a period of time thatch will build up in a lawn caused by grass clipping, leaves etc. Use your powerful Cobra S40C to help remove or 'dethatch' organic matter from your lawn.

When thatch becomes too deep, it creates problems and has a detrimental effect on the health and appearance of the lawn. Using your Cobra S40C will prevent the build up of thatch and prevent it becoming a serious problem now and in the future.

212cc Cobra Engine

The S40C scarifier is expertly powered by a 212cc high specification engine.

Transport Mode Lever

The blades or tines can easily be lifted ready for transporting to a new area.

Easy Depth Adjustment Knob

Remove moss and thatch from your lawn from -15mm - +5mm in depth.

18 Bladed Aeration Cylinder

The aeration cylinder will help relieve soil compaction and improve growth.

Engine On/Off Safety Switch

The Cobra engine is complete with an engine on/off safety switch.

24 Spring Tine Cylinder

The 24 spring tine cylinder will rake any moss or thatch from your lawn.

S390B

15" Petrol Scarifier Powered by a B&S Engine

The S390B's powerful Briggs & Stratton 550 series engine drives the 16 steel blades that will delicately but effectively tease-out any moss or thatch that may have accumulated in your lawn.

HS60S Overview

Robust Polymer Hopper

The Cobra HS60S spreader includes a long life, corrosion-resistant polymer hopper. The design of the hopper is such that the optimum throughput of spreading material is released without any getting stuck in the hopper.

Stainless Steel Construction

The stainless steel frame and gearing on the Cobra HS60S spreader make it not only robust, but resistant to rust. The high quality stainless steel build make this machine the perfect choice for spreading salt and grit.

Easy Variable Drop Rate

Using the intuitive and ergonomically positioned lever on the upper handles, the drop rate of the spreading material can be easily adjusted by the operator. This is all achieved without having to stop doing the job in hand.

AFTER SALES

Trust Cobra to support you throughout the lifetime of your product

Cobra After-Sales provides a wide variety of support, including assistance from your local dealer, such as servicing, repairs and maintenance support.

Below is an overview of the support that you can tap into. Alternatively you can call the Cobra Support line on **0115 986 6646** or email any queries or questions to: info@cobragarden.co.uk

BATTERY RECYCLING

Industrial Batteries

As a producer of Lithium-Ion industrial batteries, under the Waste Batteries and Accumulators Regulations 2009, Cobra Garden are obliged to take back free of charge, waste industrial batteries supplied to an end user for treatment and recycling. We are required to do this in any calendar year we place new industrial batteries on the market.

If any of our customers or in certain cases other end users, require us to take back Cobra Garden Lithium-Ion industrial batteries, please contact us using the contact details below. We will agree the necessary arrangements for the return, proper treatment and recycling of these waste industrial batteries using BatteryBack.

Alternatively, batteries can be taken direct to a BatteryBack collection point using the locator at:

www.batteryback.org/battery-collection.html

WARRANTY

Cobra products are covered by our comprehensive warranty

Our comprehensive warranty covers you in the unlikely event that your machine requires repair due to a manufacturing defect. The Cobra authorised dealer is obliged under this warranty to repair or replace defective parts found during the machines warranty period. This repair will be free of charge for materials and labour only. This warranty will not cover wear and tear parts such as blades, spark plugs, filters, drive belts, cables etc. Please Note: Manufacturers Engine and Battery warranty periods may differ from that of the machine.

In the event of your machine needing warranty repair please note the following:

We would always recommend the company that sold you the machine should be able to carry out the repair. In the event that they are unable to do so please locate your nearest stocking dealer with the dealer locator off the home page.

Or contact us at: info@cobragarden.co.uk

Domestic Use:

All Cobra products in the current Cobra portfolio are covered for a period of 2 years* from the date of purchase to the original purchaser. This applies when used for the designed purpose of that product by domestic users.

*2 year warranty excludes Professional Lawnmowers (5 Years) Garden Carts, Trailers, Spreaders, Sweepers & Sack Trolleys (1 Year)

Professional Use:

All Cobra Products stated are covered for a period of 1 year* from the date of purchase to the original purchaser. This applies when used for the designed purpose of that product by semi-professional and professional users.

*1 year warranty excludes Professional Lawnmowers (2 Years)

- Cobra AirMow 51 Pro Hover (1 Year)
- Kawasaki powered hand held products (1 Year)
- Cobra S-Series powered hand held products (1 Year)
- Cobra Professional Lawnmowers (2 Years)

Professional Lawnmowers, Domestic Use:

All Professional Lawnmowers in the current Cobra portfolio are covered for a period of 5 years from the date of purchase to the original purchaser. This applies when used for the designed purpose of that product by domestic users.

Professional Lawnmowers, Professional Use:

All Professional Lawnmowers in the current Cobra portfolio are covered for a period of 2 years from the date of purchase to the original purchaser. This applies when used for the designed purpose of that product by semi-professional and professional users.

REPAIR / RETURNING FAULTY GOODS

If your product fails due to a defect in materials or workmanship within the warranty period it will be repaired or replaced at no charge providing that the repairs are carried out by an approved Cobra dealer. Delivery and collection of the machine is your responsibility and not covered by the warranty.

Items should be received in a good condition, with all component parts and manuals, along with any promotional items received. You should also include your invoice and returns form.

Note: Please ensure all petrol driven products are drained of fuel and oil, due to the road transport regulation.

Please package your item securely to prevent damage during transportation, in the original box or a suitable box secured with clear tape (Not brown parcel tape), along with your invoice and a completed Returns Form and label. You can obtain a label from speaking directly to customer services team on **0115 986 6646** – machinery returns / warranty.

Note: If no fault is found with the product, the product will be returned and a handling charge of a minimum of £30.00 will apply.

If a box is required, this can be purchased at a non-refundable cost of £15.00 inc vat

CUSTOMER RESPONSIBILITIES

It is important to have your machinery properly maintained and serviced. There are specific service intervals for your machinery. It is your responsibility to ensure that this is done. Failure to carry out the required maintenance could result in your warranty being invalidated. Please refer to your owner's manual for service intervals and maintenance requirements.

Please note that your product will require more regular servicing / maintenance if working in very wet, dry, dusty conditions and or in high ambient temperatures.

COBRA PARTS & ACCESSORIES

In all cases we recommend that you only use genuine Cobra parts and accessories. Inferior parts can cause damage to you, your machine and invalidate your warranty. If you require spare parts or accessories please visit; www.cobragarden.co.uk or call **0115 986 5246**.

COBRA DEALER NETWORK

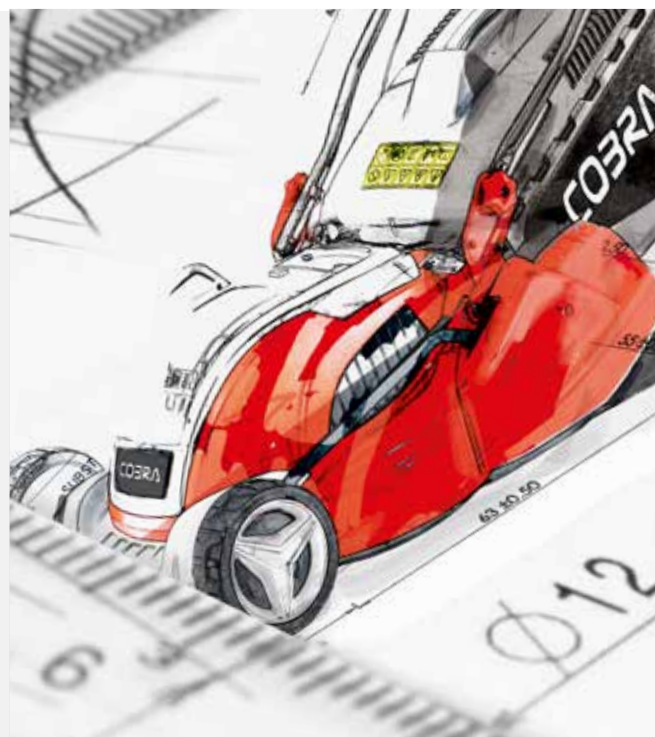

We have a comprehensive dealer network with over 400 servicing dealers. Please visit www.cobragarden.co.uk to find your nearest dealer, who would only be too happy to help you with any of your enquiries.
